

El Centro De Corazón

Providing Healthcare Services to the Underserved

It is my pleasure to provide a letter of reference for Medical ProSource. El Centro de Corazón, a Federally Qualified Health Center, has been able to depend on Medical ProSource to support our nursing staffing needs in the Houston Metro area as we continue to experience tremendous growth in our organization.

Medical ProSource's values of commitment to quality and partnership with their clients, exemplify their standards of excellence. We are confident that while the medical industry continues to grow, Medical ProSource will be able to maintain the resources necessary to support the needs of those that require their services.

Again, it is my pleasure to provide this reference for Medical ProSource. If you should have any further questions and/or concerns, please feel free to contact me.

Sincerely,

Steph, LCSW
