

It is my pleasure to provide a letter of reference for Medical ProSource. Laboratory Corporation of America, as a leading provider of Clinical Laboratory Services, has been able to depend on Medical ProSource to support our temporary staffing needs in the Houston Metro area as we continue to experience tremendous growth in our industry.

Medical ProSource's commitment to quality and partnership with their clients has continued to be the outstanding quality that we value in the service they provide for us. We are confident that while the medical and clinical laboratory industry continues to grow, Medical ProSource will be able to maintain the resources necessary to support the needs of those that require their services.

Again, it is my pleasure to provide this reference for Medical ProSource. If you should have any further questions and/or concerns, please feel free to contact me.

Sincerely,

A handwritten signature in black ink, which appears to read "Robert B. Bate". The signature is written in a cursive style and is positioned below the word "Sincerely,".
